REMARKS

This catalogue embraces the sixth part of the unequalled collection of Engraved Portraits belonging to Hon. James T. Mitchell, Chief Justice of Pennsylvania, and includes the portraits of the Lord Chancellors and Chief Justices of Great Britain, Eminent English Lawyers, The Kings and Queens of Great Britain, as well as members of the Royal Families. The fact is stated, when I say this is the most important and complete collection of its kind ever offered for sale in this country.

The portraits enumerated herein appeal to the collector of prints at large, on account of their great artistic beauty, aside from the personages represented, and they exhibit the best work of that select coterie of engravers of the seventeenth and eighteenth centuries, who so excelled in the art of Mezzotinto Engraving that their productions have never been equalled, and will never be surpassed. The names of Turner, Reynolds, Ward, Dunkarton, Smith, Faber, Hodgetts, McArdell, and Walker carry with them a guarantee of such excellence that those interested in the collecting of Works of Art cannot but give this sale their particular attention. Many of the portraits, and those, too, of the most important subjects, are in proof state, or are beautiful brilliant impressions.

We wish to call the attention of our own Great Exponents of the Law to the many beautiful portraits of Fathers of the English Law, upon which our own is founded. Nothing more appropriate can be had to decorate the walls of your offices or libraries, or be placed in the Universities devoted to legal training, to impress upon the student the gravity of the calling and the honor attached to a faithful service.

The examples engraved are from the master brushes of Van Dyck, Sir Godfrey Kneller, Sir Peter Lely, Sir Joshua Reynolds, Sir Thos. Lawrence, and other noted painters, and this is why we find so many beautiful portraits of the English Queens and Princesses and Ladies of the Nobility enumerated in this catalogue, and engraved by the great masters of the burin. As far as admissible we have made reproductions, some of the most noted, which will convey an adequate idea of the importance of the collection as a whole.
